SUBJECT: Request for Information on Disappeared Person

The Department has received an inquiry from Robert Permin, the president of a local Amnesty International chapter, regarding Angel Mario Garmendia. According to Permin, Garmendia was a Professor of Chemistry at the University of Tucuman when he disappeared in 1977. Permin states that there has been no information on Garmendia in recent years, but since a number of bodies have been uncovered in the past several months, he wondered whether there may have been some new information on Garmendia.

Any information Embassy may have that can be passed on to Permin will be appreciated.
